## TECH EXPERIENCE

### Junior Software Developer — Fully Remote

\_Nology (May - August 2020)

Completed a self-funded full-time 12-week software development course. Intensive focus on becoming job-ready, from commercial awareness to technical know-how.

- Gaining a variety of technical skills, including front and back-end (see side bar)
- Problem-solving: the balance between independence, research, peer-support and responsibly escalating tech issues that arise
- A week devoted to soft skills including communication, self-management and problem-solving culminating in a 5 minute TED-style talk
- Understanding how real dev teams operate (with weekly mentors from industry)
- Resilience & remote working
- 4-week client project (Ewe4you) in a team of 10 people. working closely with the product owner, pair-programming, weekly sprints, retrospectives and daily standups.
- Building my own portfolio projects <https://galapagos.nology.io/mairéad>
